The Malaysian Society for Non-Destructive Testing (MSNT) is proudly to announce and invite you to its biennial event, the Malaysia International NDT Conference and Exhibition (MINDTCE). The event that marked the 6th MINDTCE conference series organised by MSNT will be the closing international NDT event for the year 2020. As in preceding MINDTCE, the conference and exhibition have offered one of the best promotions of NDT in this region as well as great opportunities to meet and interact with the people from the industry, research organizations, academia, NDT training and certification, regulatory bodies and etc. Thus, MINDTCE'20 will provide the platform for presenting, promoting and displaying the current and latest developments in NDT before we start our journey to the new decade.
